

**HENLEY
ROYAL REGATTA
2022**

**TRAFFIC RULES
AND
TRAINING TIMES**

For the Committee of Management

*Regatta Headquarters
Henley-on-Thames*

*Secretary
Henley Royal Regatta*

Crews may boat for training from the Boat Tent Area from **08:00 on Monday, 20 June** onwards, after they have registered their arrival.

Every crew arriving at the Boat Tent for the first time must register its arrival with the Boat Tent Official before boating for training. The Boat Tent Official is available from 08:00 until 20:00 each day from Monday, 20 June onwards.

Full details of permitted training times are on the last page of this document.

GENERAL TRAFFIC RULES ON THE RIVER

On Monday, 20 June the traffic rules on the river will be changed under the direction of the Environment Agency to allow crews to use the Course as during the Regatta, i.e. rowing from the Start to the Finish between the booms. Leisure and commercial traffic will not be permitted on the Course after that time.

All of the rules and instructions in this booklet apply to all crews competing at the Regatta, during both training and racing (except where specified otherwise), until the end of the Regatta.

Crews boating from Henley Rowing Club, Leander Club, Upper Thames Rowing Club or any other point along the river should follow the same traffic circulation pattern, joining and leaving it at the appropriate point for them.

LEAVING THE BOAT TENT PONTOONS

During training, crews must take extreme care when leaving the pontoons and crossing the river to join the main navigation channel on the Buckinghamshire side of the Course.

During racing, crews will be instructed by marshals when and how to leave the pontoons, and they must follow these instructions.

PROCEEDING TOWARDS THE START

The routes for proceeding towards the Start will change on Friday, 1 July at 17:00 (or at such other times as the Stewards may direct). The change is made to protect crews from increased commercial and leisure traffic on the river after that time.

After this changeover there will be different routes during training and during racing.

Until 17:00 on Friday, 1 July (or at such other times as the Stewards may direct) **during both training and racing**, crews may proceed towards the Start using either the general navigation channel on the Buckinghamshire side of the Course or the protected channel on the Berkshire side of the Course (see Map 1).

The Buckinghamshire channel may become very crowded, particularly between the Mile signal and Fawley. The normal rules of navigation apply in the Buckinghamshire channel at all times, and crews must comply with any directions issued by the Environment Agency.

If crews wish to use the Berkshire channel they may only cross the Course at the two official crossing points: the Mile And An Eighth signal and the Barrier (both marked with green flags).

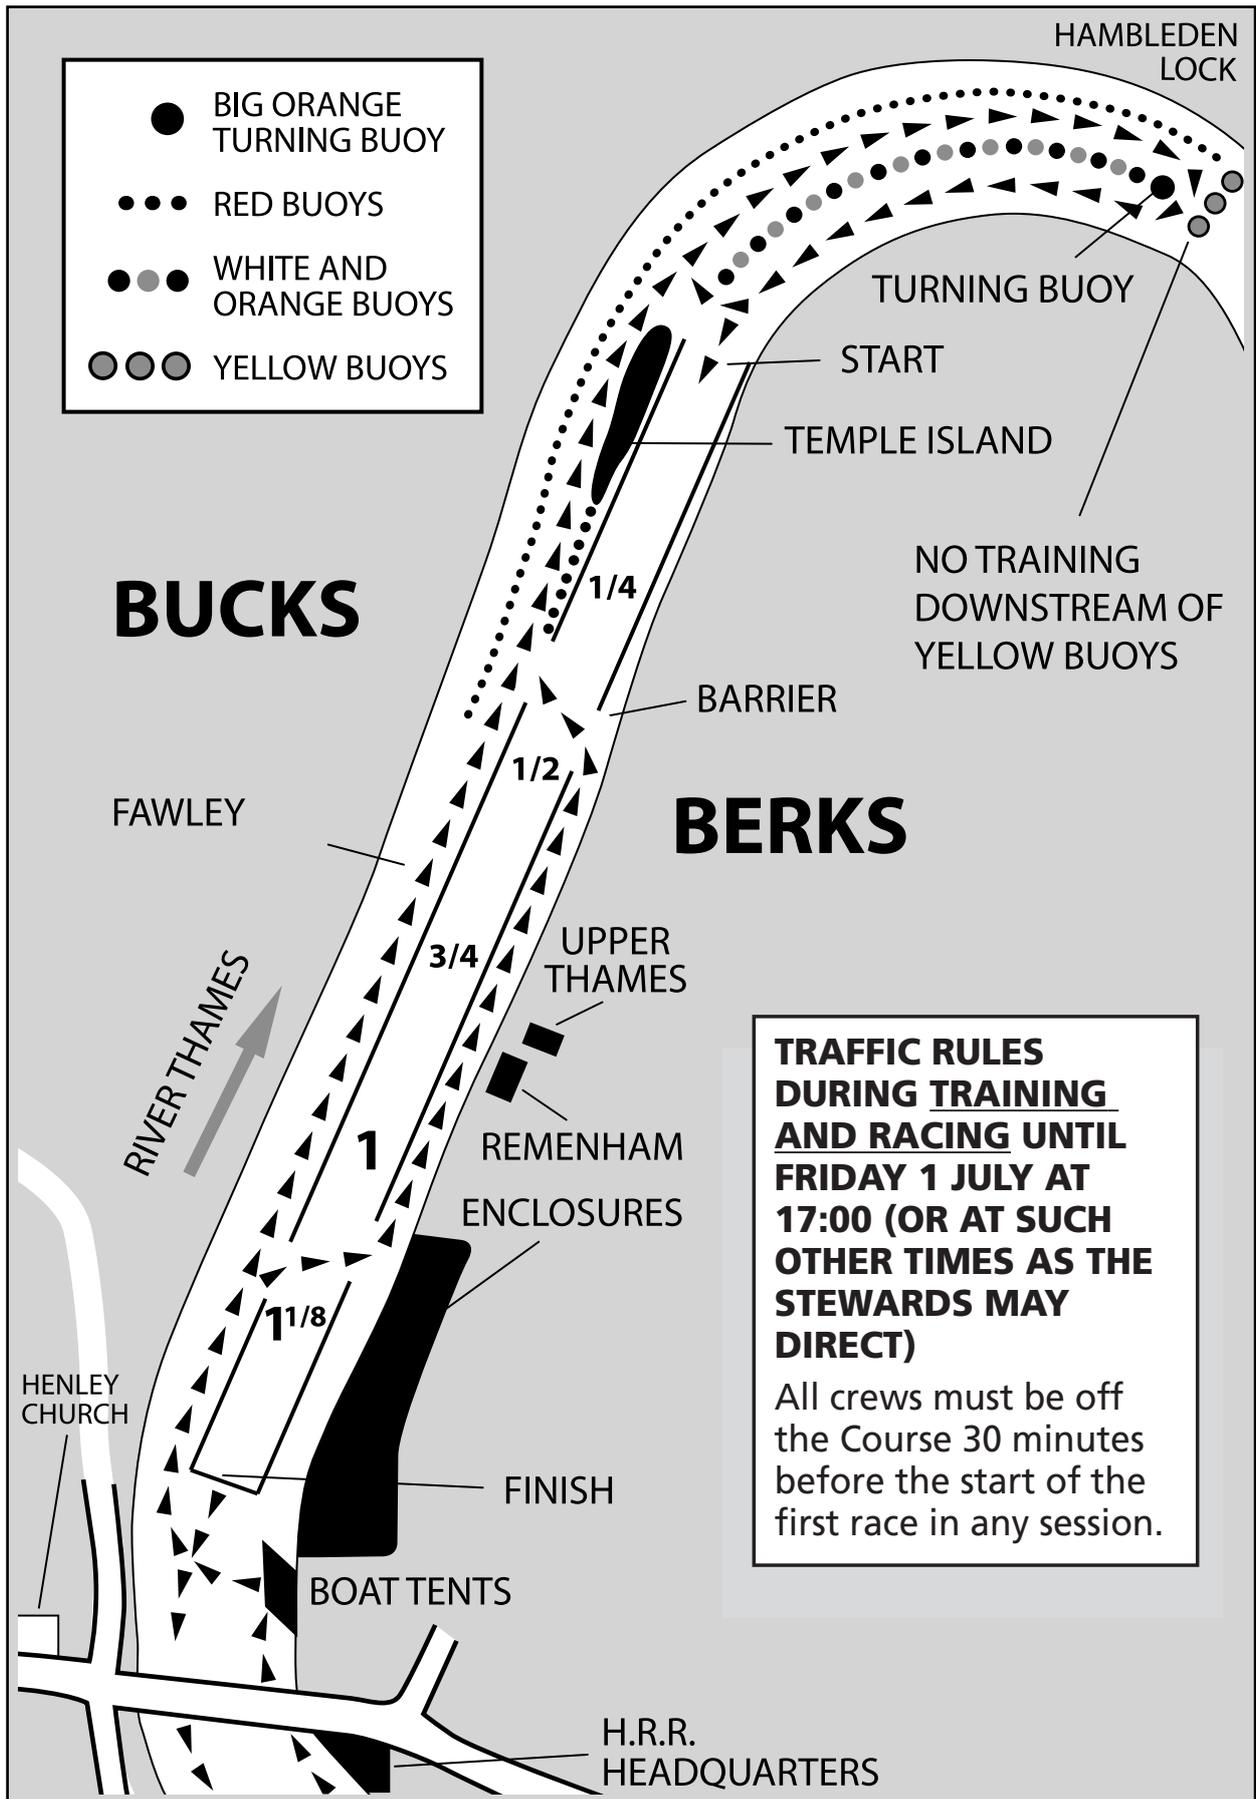

In either channel, crews are asked to paddle steadily, and to reserve their practice starts and bursts of hard rowing until they are in the warm-up area downstream of Temple Island.

From the Barrier, all crews must proceed within the protected area between the red buoys and the Course/Temple Island.

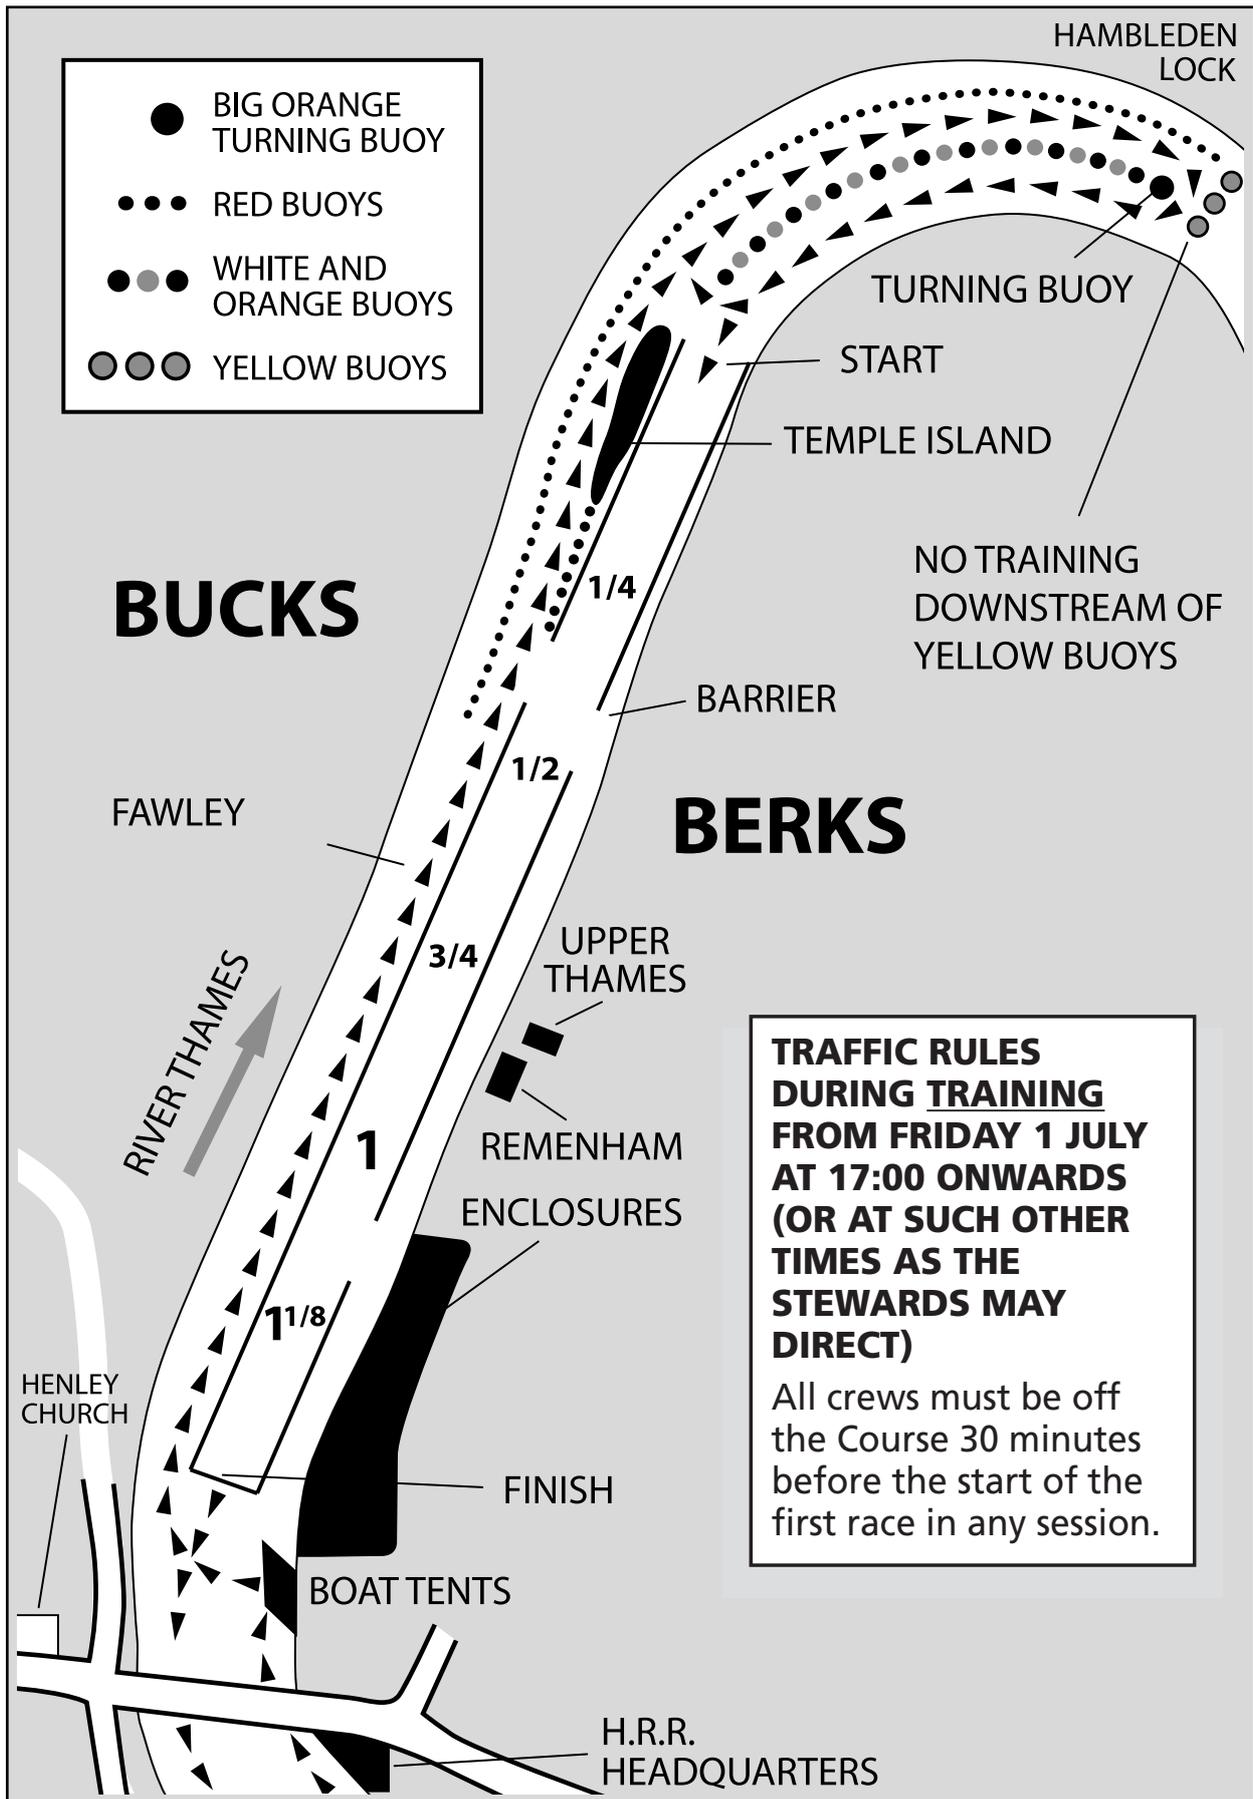

From 17:00 on Friday, 1 July onwards (or at such other times as the Stewards may direct) **during training**, the instructions for proceeding towards the Start are the same as above, **except** that the crossing at the Mile And An Eighth signal will be closed off and crews must proceed towards the Start in the Buckinghamshire channel only (see Map 2).

From 17:00 on Friday, 1 July onwards (or at such other times as the Stewards may direct) **during racing**, crews going to the Start will paddle down inside the Course from the Finish to the crossing at the Mile And An Eighth signal and then move into the Berkshire channel (see Map 3). Races will be at ten-minute intervals after the changeover, to allow time for this. Crews launching to go to the Start will be instructed by marshals when to push off from the pontoons and how to proceed. They must be ready to move onto the Course at the Finish as soon as they are instructed to do so, immediately after a race has finished. They should then proceed steadily down past the Enclosures and into the Berkshire channel. Once in the Berkshire channel, crews will proceed towards the Start in the same way as previously during training.

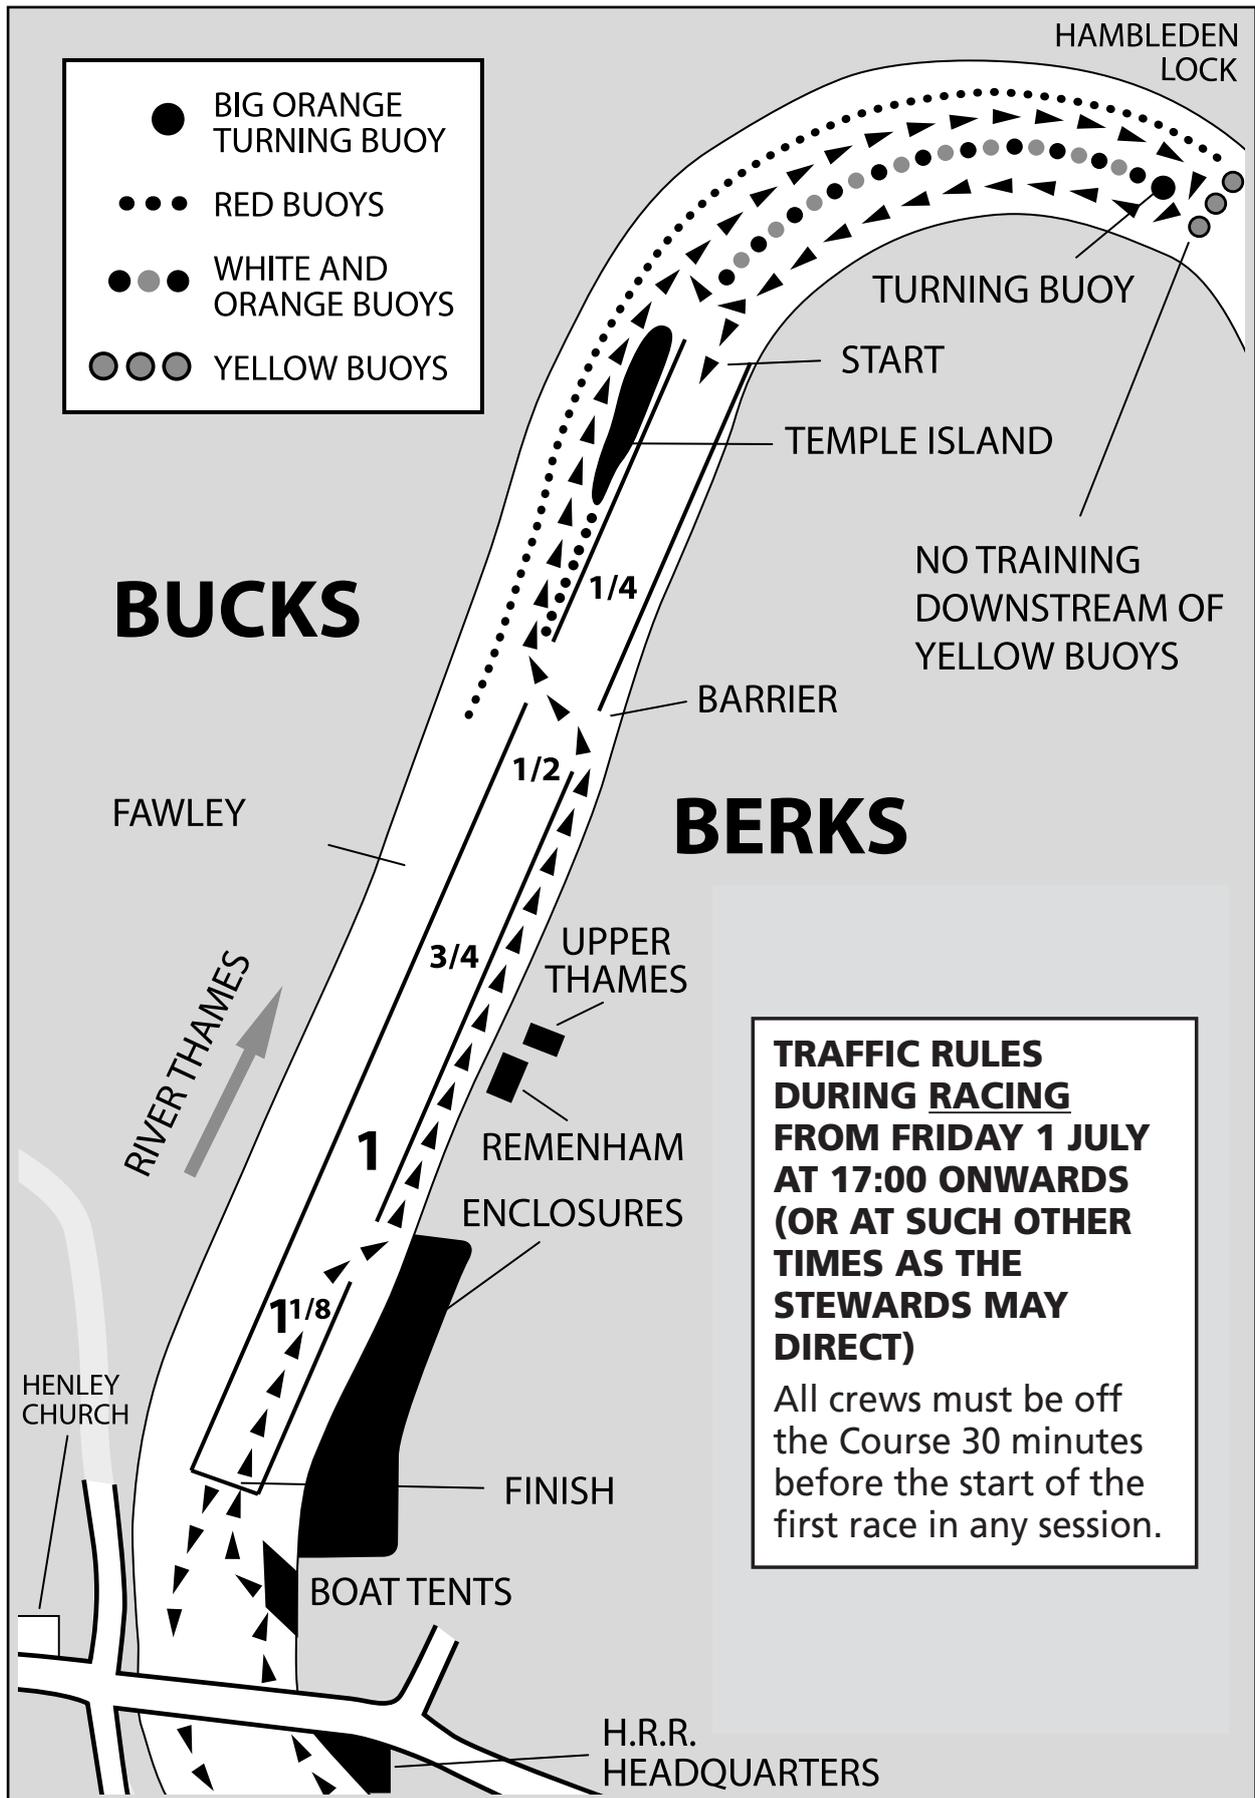

MAP 1

MAP 2

MAP 3

CIRCULATION PATTERN IN WARM-UP AREA

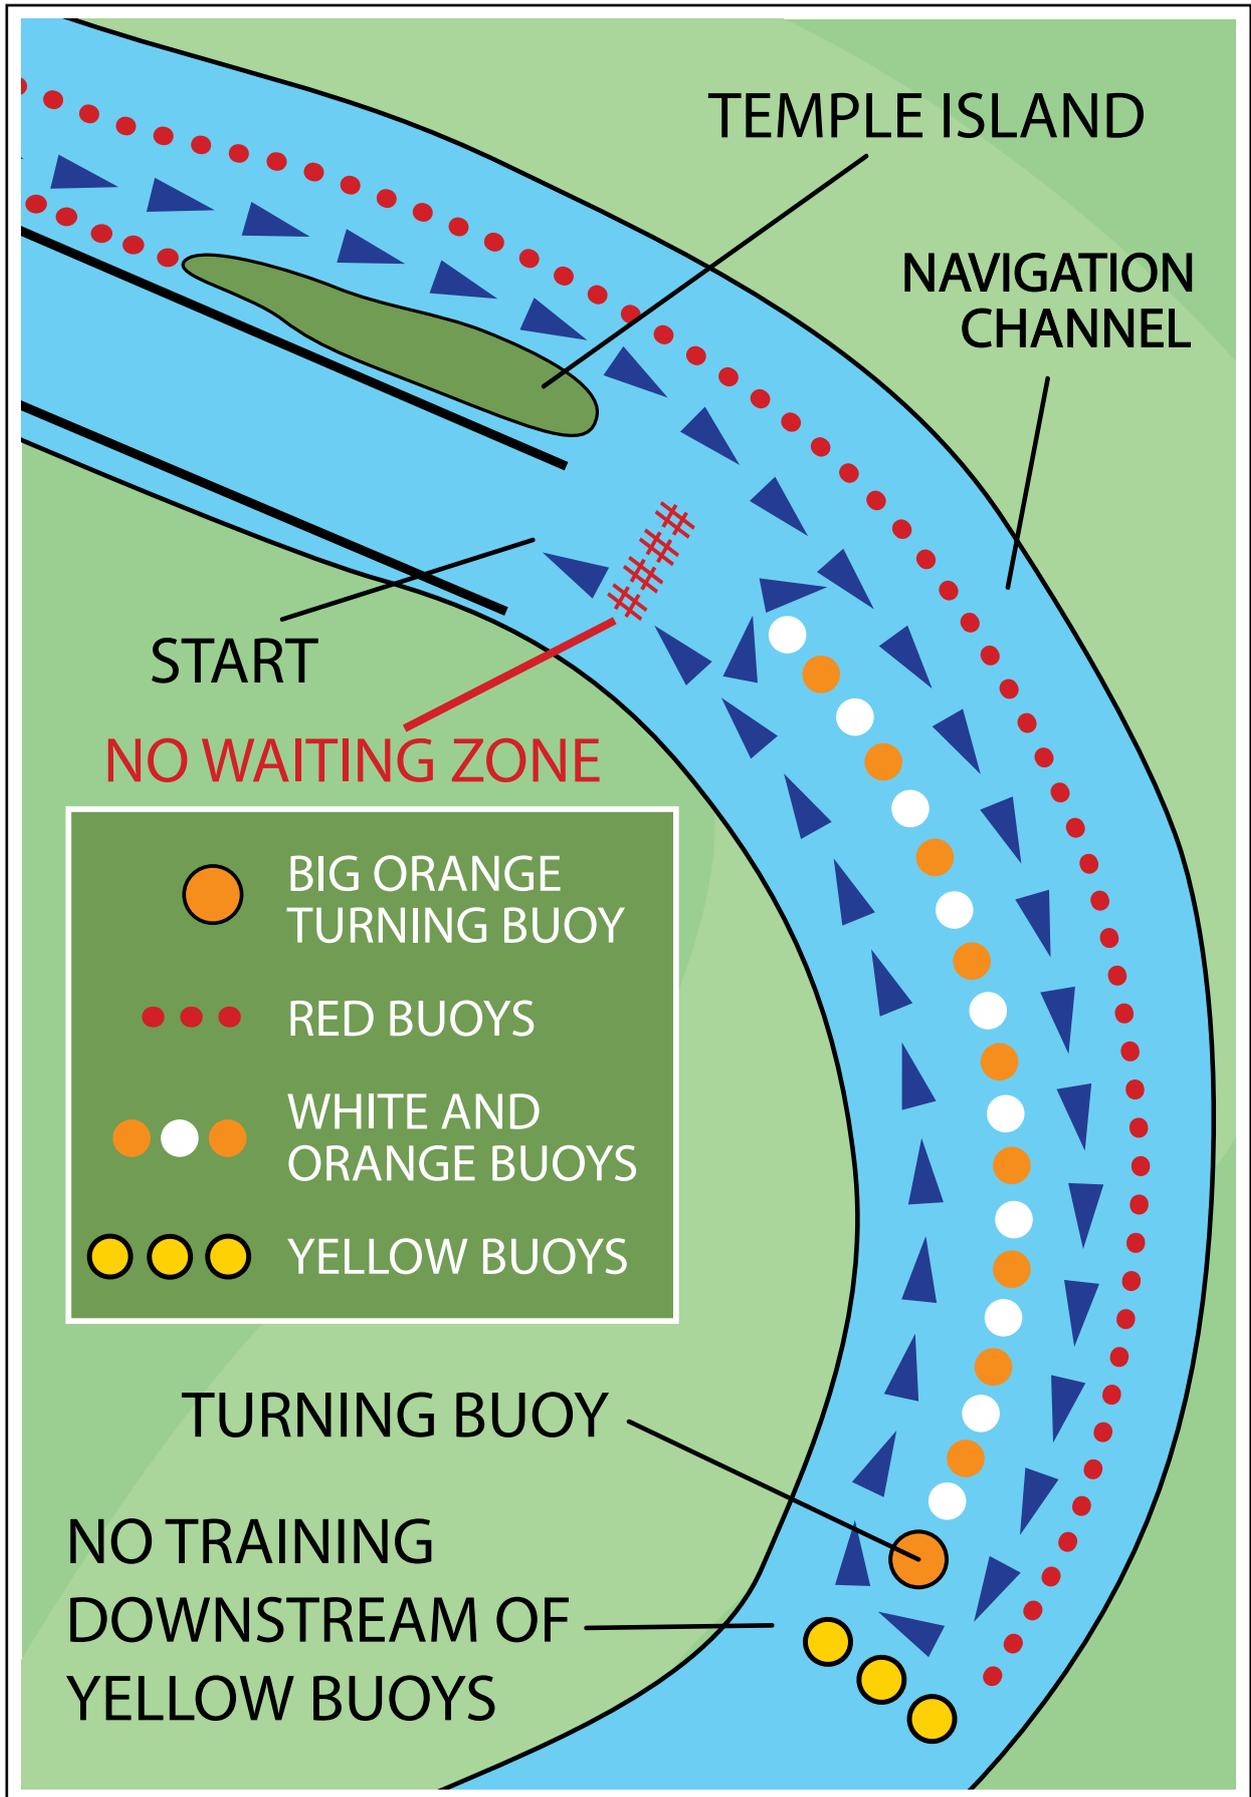

Downstream from Temple Island all crews must stay within the warm-up area marked by the line of red buoys, and must not go past the line of large yellow buoys at the downstream end (see Map 4).

Crews must turn around the large orange 'turning buoy', and then circulate in a clockwise manner around the line of alternate white and orange buoys.

Crews must take care when practising starts as the warm-up area is narrow and on a bend, so it is not possible to go straight for any distance.

On the days of racing, the downstream section of the warm-up area may be further restricted by boats moored on the Berkshire bank.

Crews waiting to come onto the Start for their race should wait downstream of the 'No Waiting Zone' to allow space for the Umpire's launch to turn.

ON THE COURSE

Crews may only enter the Course at the Start.

During training, crews stopping on the Course must not obstruct following crews. Crews waiting to get on the Start must wait in an orderly manner and not overtake waiting crews. Crews on the Course, rowing towards the Finish, have absolute right of way at all times over those ahead of them.

During training in the luncheon and tea intervals from Thursday, 30 June, crews taking part in celebration rowpasts will be rowing over the Course. These crews will come on to the Course immediately after the last race of the preceding racing session. Training crews entering the Course during these intervals **MUST** leave at least 200 metres of clear water behind these celebration crews at all times, and **MUST NOT** under any circumstances catch or overtake these crews.

AFTER THE FINISH

Cooling down is not permitted on the Course after racing.

Any crew using the river upstream of Henley bridge for cooling down does so at its own risk. Crews may go upstream through the arches on the Church side of the bridge only; using the centre arch of the bridge is forbidden, in either direction.

OBSTACLES TO WATCH OUT FOR

There is a large filming platform adjacent to the Start. Crews must keep a good lookout for this platform when approaching the Start.

Between the top of Temple Island and the Barrier, a low-wash TV camera catamaran will operate next to the Course as part of the filming of races. It will travel inside its own buoyed lane and will track alongside each race. Crews should take particular care when crossing the Course at the Barrier and at the top of the Island where the catamaran will be turning.

A drone will be deployed to gather pictures from the air. Crews should not stop within 20 metres of the drone platforms, when in use, for safety reasons.

COACHES ON THE TOWPATH

For many years there has been a convention that Coaches on the towpath, whether on foot or bicycle, keep to the right and Coaches with crews coming up the Course always have right of way over Coaches going downstream. Notwithstanding this convention, Coaches are reminded that pedestrians using the towpath have the right of way at all times and Coaches using the towpath do so at their own risk and without the approval of the Regatta.

TRAINING TIMES RESTRICTIONS

| FRIDAY, 17 JUNE TO SUNDAY, 3 JULY | | | |
|--|------------------------|--|--|
| Friday 17 to Sunday 19 | Henley Women's Regatta | Course closed | Each day – all day. |
| Monday 20 | Training day | Course open | From 08:00 onwards, when the Boat Tent opens for crews to arrive. |
| Tuesday 21 to Thursday 23 | Training days | Course open | Each day – all day. |
| Friday 24 | HRR Qualifying Races | | Course open until 13:00, and then it is closed. |
| Saturday 25 to Sunday 26 | Training days | Course open | Each day – all day. |
| Monday, 27 | Training day | Course open | EXCEPT between 15:00 and 16:00 when the Course will be closed to training crews for a filming rehearsal. |
| Tuesday 28 to Sunday 3 | HRR Race Days | <p>No training on the Course during racing.</p> <p>Training on the Course is allowed in the early morning, in the lunch and tea intervals, and after racing in the evening, strictly subject to the following rules:</p> | <ul style="list-style-type: none"> • Crews must be off the Course 30 minutes before the start of the first race in any session. • Crews wishing to train after a session of racing may boat no earlier than 10 minutes before the start of the last race in the session. • Only those crews racing in the session immediately after any lunch or tea interval are allowed to train during that interval (unless the Stewards direct otherwise). • On Saturday, 2 July training is not allowed in the evening after racing (the Course is traditionally opened to other river traffic). |
